 - 11:30 Parent assembly Y3 & Y4
 - 12:00 TPL Parents Social BBQ
- 30 Sept – Kasisi Outreach final day
- 30 Sept – Jr Gala @ LICS

Stars of the Week

Early Years

For our IPC Unit on what it means to be an 'Animal Rescuer' we have been learning all about animals and in particular; how to care for them.

Early Years

"As responsible rescuers we have been taking great care of our two classroom Guinea Pigs, we named them 'Light and Ginger.' We have been interacting with them, understanding their needs, and making sure they are kept in a safe environment."

"We are learning to recognize the important connections, doing research about their origin, what food they eat and our role in their lives."

Year 1&2

For IPC this term we kicked off our new theme with our very own Olympic Games. This was a fun experience, and each learner received their very own 'gold' Olympic Medal.

However, disappointment soon settled in when they were told that it was in fact NOT real gold.

Year 3&4

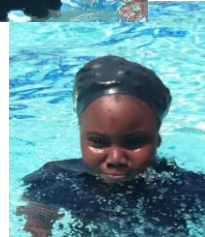

We have learnt about different currencies that are being used all over the World. Most importantly, we have learned about the Kwacha and ngwee that we are all using in Zambia. Now, we need to plan our trip to PEP and go and spend some of our pocket money.

Sport

Our sporting programme has started again in earnest. Some of our friends were less than impressed with the first swim of the season, and others were more enthusiastic.

Sport

An important focus in Physical Education is the improvement of fitness levels and students' core body strength as well as the improvement of muscle tone. Our morning runs have assisted with this in a huge way. Important to note that students are expected to keep up their fitness levels during holidays. Healthy eating must be prioritised and exercise should form part of their daily routine.

We look forward to a busy term and many exciting activities. Some of the highlights to look forward to is the whole-school campout, the fishing competition, the school play as well as some educational excursions for our students.

Our first social event for parents and teachers is on Friday 23 September, in the form of a Bring & Braai and we look forward to a casual afternoon where teachers and parents can meet and have a chat in a casual environment (please note, it is not a parent consultation and we are all discouraged to discuss children's progress on the day) Up for casual discussion will be various plans and ideas of how we are all going to work together to make TPL one of the premier schools in Lusaka and the plan to boost enrolment numbers going into the future.
